

WEATHERKING

Furnaces

80LJ 80% Downflow

The WeatherKing 80% Downflow Furnace is a value-alternative which enjoys the benefits of high-efficiency at lower cost.

- **Compact Cabinet**
With a cabinet height of just 34" for all capacities, space requirements are kept to a minimum and installations easier.
- **Furnace Control**
This solid state integrated furnace control is the "brain" of this dependable furnace-controlling the blower and inducer motors for heating capacity and efficiency.
- **Patented Heat Exchanger**
Extremely compact the heat exchanger provides a faster, more efficient transfer of heat. The aluminized and stainless steel construction is so reliable its backed with a 20-year limited warranty.
- **Induced Draft Blower**
It works specifically with the heat exchanger. The blower pulls hot combustion gases through the exchanger and vents them outdoors.
- **In-Shot Burners**
Regulates the air/gas mixture.
- **Blower Motor**
An easy slide out blower motor for easy access. The blower quietly circulates air around the heat exchanger, where its heated to comfortably warm your home.

Limited Warranty Information

20 year heat exchanger limited warranty.
All parts have a five-year limited warranty.

Comfort and Efficiency

Heating Capacities from
50,000 to 150,000 BTU/Hr
