## 80PJ 80% Upflow/Horizontal

The WeatherKing 80% Upflow/Horizontal Furnace is a value-alternative which enjoys the benefits of high-efficiency at lower cost.

- **Wrap-around Cabinet**

With a cabinet height of just 34" for all capacities, space requirements are kept to a minimum and installations easier.

- **Furnace Control**

This solid state integrated furnace control is the "brain" of this dependable furnace-controlling the blower and inducer motors for heating capacity and efficiency.

- **Patented Heat Exchanger**

Extremely compact the heat exchanger provides a faster, more efficient transfer of heat. The aluminized and stainless steel construction is so reliable its backed with a 20-year limited warranty.

- **Induced Draft Blower**

It works specifically with the heat exchanger. The blower pulls hot combustion gases through the exchanger and vents them outdoors.

- **In-Shot Burners**

Regulates the air/gas mixture.

- **Blower Motor**

An easy slide out blower motor for easy access. The blower quietly circulates air around the heat exchanger, where its heated to comfortably warm your home.

### Limited Warranty Information

20 year heat exchanger limited warranty.

All parts have a five-year limited warranty.

**Upflow/Horizontal Models  
Accommodate most  
installation Requirements**

**Heating Capacities from  
50,000 to 150,000 BTU/Hr**

**WeatherKing L.L.C.**
